

## Membership | ICoCA - International Code of Conduct Association

Membership of the ICoC Association consists of States or intergovernmental organizations, private security companies, and civil society organizations – also referred to as the three stakeholder groups.

Member States of the ICoC Association are States that also support the Montreux Document, and include the main headquarter States of PSCs. PSC members of the ICoC Associations come from all continents and range from smaller companies to some of the world market leaders. ICoC Association member companies provide both land-based and maritime-based security services. Civil society organization members of the ICoC Association include international non-governmental organizations as well as local non-governmental organizations working in complex environments where PSCs operate.
